ALPS | CoreCommodity Management
CompleteCommodities® Strategy Fund

Fact Sheet | September 30, 2023

Investment Objective
The Fund seeks to maximize real returns, consistent with prudent investment management.

Approach
• Actively managed portfolio of both commodity futures and natural resource equities.
• Flexible allocation between commodity futures and natural resource equities.
• Long-only, unlevered access to commodity assets including oil, copper, gold and wheat.
• Excess collateral is US government bonds and cash.
• Management team with combined experience of over 60 years of commodity investing.

Performance as of 9/30/2023

Performance data quoted represents past performance. Past performance is no guarantee of future results so that shares, when redeemed, may be worth more or less than their original cost. The investment return and principal value will fluctuate. Current performance may be higher or lower than the performance quoted. For current month-end performance call 1-866-759-5679 or visit www.alpsfunds.com. Performance includes reinvested distributions and capital gains.

Maximum Offering Price (MOP) performance for Class A shares includes the Fund's maximum sales charge of 5.50%. Contingent Deferred Sales Charge (CDSC) performance for Class C shares includes a 1% CDSC on shares redeemed within 12-months of purchase. Performance shown at Net Asset Value (NAV) does not include these sales charges and would have been lower had it been taken into account.

Performance for Class A shares prior to 6/12/2018 reflects the historical performance of the Fund's Investor Class shares, calculated using the fees and expenses of Class A shares. Performance less than one year is cumulative.

1 Fund inception date: 6/29/2010
2 Bloomberg Commodity Index: an unmanaged index used as a measurement of change in commodity market conditions based on the performance of a basket of different commodities.
3 Refinitiv / CoreCommodity CRB Index: a basket of 19 commodities, including energy contracts, agriculture, precious metals, and industrial metals, the Index acts as a representative indicator of commodity markets.

One may not invest directly in an index.

As of 9/30/2023, subject to change

Participation in commodities is generally achieved through investments in over-the-counter commodity swap contracts, futures and/or options. The portfolio composition data presented above is an estimate and may not include, among other things, investment expenses, dividends or interest payments, advisory fees or other expenses incurred by the Fund.

Important Disclosures & Definitions

An investor should consider the investment objectives, risks, charges and expenses carefully before investing. To obtain a prospectus containing this and other information, call 1-866-759-5679 or visit www.alpsfunds.com. Read the prospectus carefully before investing.

Performance data quoted represents past performance. Past performance is no guarantee of future results; current performance may be higher or lower than performance quoted. All investments are subject to risks, including the loss of money and the possible loss of the entire principal amount invested. Additional information regarding the risks of this investment is available in the prospectus.

The commodities markets and the prices of various commodities may fluctuate widely based on a variety of factors. Because the Fund’s performance is linked to the performance of highly volatile commodities, investors should consider purchasing shares of the Fund only as part of an overall diversified portfolio and should be willing to assume the risks of potentially significant fluctuations in the value of the Fund. The Fund invests in commodity futures related investments, which are derivative instruments that allow access to a diversified portfolio of commodities without committing substantial amounts of capital. Additional risks of commodity futures related investments include liquidity risk and counterparty credit risk. Liquidity risk is the risk stemming from the lack of marketability of an investment that cannot be bought or sold quickly enough to prevent or minimize a loss. Counterparty risk is the risk that a party to a transaction will fail to fulfill its obligations. The term is often applied specifically to swap agreements in which no clearinghouse guarantees the performance of the contract. Another principal risk of investing in the Fund is equity risk, which is the risk that the value of the securities held by the Fund will fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate or factors relating to specific companies in which the Fund invests. The Fund’s investments in non-US issuers may be even more volatile and may present more risks than investments in US issuers. Equity investments in commodity-related companies may not move in the same direction and to the same extent as the underlying commodities.

ALPS Advisors, Inc. and CoreCommodity Management, LLC, are registered with the CFTC as the Commodity Pool Operator and, respectively, as the Commodity Trading Advisor. Both ALPS Advisors, Inc. and CoreCommodity Management, LLC, are NFA members.

ALPS Advisors, Inc. is the investment adviser to the Fund and CoreCommodity Management, LLC is the investment sub-adviser to the Fund. ALPS Advisors, Inc., ALPS Distributors, Inc. and ALPS Portfolio Solutions Distributor, Inc., affiliated entities, are unaffiliated with CoreCommodity Management, LLC. CoreCommodity Management, LLC serves as investment adviser to the Fund’s Cayman Islands subsidiary, “CompleteCommodities” is a service mark of CoreCommodity Management, LLC.

ALPS Portfolio Solutions Distributor, Inc. is the distributor for the Fund.
