

ALPS | Kotak India ESG Fund

Tickers: INDIX | INDSX | INDAX | INAAX | INFCX

Fact Sheet as of March 31, 2025

Why India?

- Currently ranked 5th largest economy by GDP and 4th largest by market cap.⁽¹⁾
- 2nd best performing stock market in the world in USD terms over 25 years across 5-year intervals.⁽²⁾
- \$4 trillion GDP with 11-12% nominal growth, poised to become 3rd largest this decade.⁽³⁾
- 2nd largest weightage (20%) in MSCI Emerging Markets (EM) Index.⁽⁴⁾ Single largest investable opportunity within EM.
- Debt-to-GDP and corporate debt-to-equity at historical lows.⁽⁵⁾ Both financial and operating leverage at play.
- Demographic dividend with 50% of population <25 years old; ~500 million set to join workforce over next two decades.⁽⁶⁾
- 1 billion smart phone and data users;⁽⁷⁾ digital transactions at 76% of GDP.
- Beneficiary of debt, demographics, digitization and deglobalization trends.⁽⁸⁾
- India's 401k moment: mutual fund systematic investment plans (SIPs) on the rise; financialization of savings and consumption remain key themes.
- Currently office to the world and set to be factory (manufacturing hub) to the world – multinational corporation (MNC) sentiment at multi-year high.
- Long-term structural reforms in place: flexible inflation targeting, digitizing social transfers, focus on foreign direct investment (FDI), goods & services tax, Real Estate Act, Insolvency and Bankruptcy Code (IBC) and production incentives to support corporate profits.
- Continued political stability; focus is on executing key supply side reforms to accelerate India's potential growth rate from 7% to 8%+ without triggering inflation side effects.

Why Kotak?

- One of largest private sector commercial banks in India across all facets of financial services.
- Dedicated India manager with \$78.41 billion (USD) assets under management (AUM)⁽⁹⁾ providing solutions to global institutional clients for over 25 years.
- Backed by decades of experience with a robust risk management and corporate governance framework.
- Only India manager with a 1940 Act mutual fund in the US and teams/fund structures across global jurisdictions.
- Largest buy-side research team with 16 analysts alongside Head of Research.
- Consistent research/fund management team from a longevity standpoint.

Why the ALPS | Kotak India ESG Fund?

- Well-diversified active all-cap strategy to capture long runway for growth.
- 14-year performance track record demonstrating alpha over MSCI India Index and India exchange-traded funds (ETFs)/peers.
- Diversified portfolio with higher conviction in top 15 holdings.
- Available on US 1940 Act-platform with ease of investing and daily liquidity.
- Typical dividend yield for the Fund is ~2.5% which adds to incremental return. See page 2 for 3/31/2025 yield data across all available share classes.
- Benefits of an active strategy at the cost structure of an ETF with 65 basis point (bps) management fee. See page 2 for all applicable shareholder fees and annual fund operating expenses.

All-Cap Universe

Investment Philosophy

The Fund seeks to invest in businesses which earn high return on equity and capital with a durable competitive advantage run by capable management. A combination of top-down sector driven and bottom-up stock selection approaches utilize the following criteria:

Business

- Competition
- Size, economics, scalability and sustainability

Management

- Vision
- Execution engine
- Growth orientation
- Corporate governance

Valuation

- Price relative to value should be reasonable

Class C	16.85%	-1.24%	-1.24%

Performance data quoted represents past performance. Past performance is no guarantee of future results so that shares, when redeemed, may be worth more or less than their original cost. The investment return and principal value will fluctuate. Current performance may be higher or lower than the performance quoted. The Fund imposes a 2.00% redemption fee on shares held for less than 30 days. Performance shown does not include the redemption fee which, if reflected, would reduce the performance quoted. For current month-end performance call 1-866-759-5679 or visit www.alpsfunds.com. Performance includes reinvested distributions and capital gains.

Returns for periods greater than one year are annualized.

Maximum Offering Price (MOP) performance for Class A shares includes the Fund's maximum sales charge of 3.25%.

Contingent Deferred Sales Charge (CDSC) performance for Class C shares includes a 1% CDSC on shares redeemed within 12-months of purchase. Performance shown at Net Asset Value (NAV) does not include these sales charges and would have been lower had it been taken into account.

Effective 6/12/2018, Class A shares of the Fund were added as a new available class. Performance for Class A shares prior to 6/12/2018 reflects the historical performance of the Fund's Investor Class shares, calculated using the fees and expenses of Class A shares. Effective 12/19/2019, Class II shares of the Fund were added as a new available class. Performance for Class II shares prior to 12/19/2019 reflects the historical performance of the Fund's Class I shares, calculated using the fees and expenses of Class II shares.

Portfolio Management

Amit Jain

Co-Portfolio Manager

Fund Manager since September 2023; 21 years investment experience

Involved with the Indian equity markets for 21 years, Amit is the Co-Portfolio Manager of the ALPS | Kotak India ESG Fund. Before joining Kotak, Amit worked with Samsung Asset Management (HK) Limited as an investment manager for around 10 years (2013 to 2022) and as an analyst prior to that (2010 to 2013). Prior to his last stint with Samsung, he was with Fidelity Investment, Temasek and ICICI Group. Amit holds a PGDCM at IIM Calcutta (Gold Medallist) and is a CFA Charter holder. He is also an Associate Chartered Accountant (ACA).

Nitin Jain

Co-Portfolio Manager

Fund Manager since inception (February 2011); 29+ years investment experience

Involved with the Indian equity markets for more than 29 years, Nitin has been responsible for guiding the investment strategy of the Long-only offshore funds for nearly 17 years. He and his team manage strategies across various market capitalizations and themes including Large-cap, Mid-cap, Multi-cap, Concentrated strategies and Thematic funds. Before joining Kotak, Nitin worked with SBI Mutual Fund as an investment manager, leading the fund management team of the first commodities-based equity mutual fund for India. Prior to that, he was in equity sales and worked as an equity analyst. Nitin has an MBA from Mumbai University, India and is a CFA Charter holder. He also holds a Bachelors degree in Engineering from Government Engineering College, Madhya Pradesh, India.

Important Disclosures & Definitions

An investor should consider the investment objectives, risks, charges and expenses carefully before investing. This material must be preceded or accompanied by the prospectus. Read the prospectus carefully before investing.

Performance data quoted represents past performance. Past performance is no guarantee of future results; current performance may be higher or lower than performance quoted. All investments are subject to risks, including the loss of money and the possible loss of the entire principal amount invested. Additional information regarding the risks of this investment is available in the prospectus.

Diversification does not eliminate the risk of experiencing investment losses.

Investments in India can be considered speculative, and therefore may offer higher potential for losses. Political and economic structures in India generally lack the social, political and economic stability of more developed nations. Share prices of Indian companies tend to be volatile, can be subject to currency exchange fluctuations and can lack liquidity. The stock markets in India are undergoing a period of growth and change, which may result in trading or price volatility and difficulties in the settlement and recording of transactions, and in interpreting and applying the relevant laws and regulations. The risk of loss may be increased because Indian issuers are not subject to the extensive accounting, auditing and financial reporting standards and practices which are applicable in the United States. There is also a lower level of regulation and monitoring of the Indian securities market and its participants than in other more developed markets. Because the Fund concentrates in a single region of the world, the Fund's performance may be more volatile than that of a fund that invests globally. If Indian securities fall out of favor, it may cause the Fund to underperform funds that do not concentrate in a single region of the world.

The Fund's consideration of ESG factors as part of its investment strategy may limit the types and number of investment opportunities available to the Fund and, as a result, the Fund may underperform other funds that do not consider ESG factors. In evaluating a security based on ESG criteria, the Sub-Adviser is dependent upon information and data from third party ESG providers. ESG scorings and assessments of issuers can vary across third-party data providers and may change over time. There is no assurance that employing ESG strategies will result in more favorable investment performance; ESG considerations may affect a Fund's exposure to certain companies or industries and a Fund may forego certain investment opportunities.

30-Day SEC Yield: reflects the dividends and interest earned during the period, after the deduction of the Fund's expenses.

30-Day SEC Yield (Unsubsidized): reflects the dividends and interest earned during the period, after the deduction of the Fund's expenses, excluding fee waivers.

Alpha: a measure of performance on a risk-adjusted basis; often considered the active return on an investment, the ratio gauges the performance of an investment against a market index used as a benchmark.

Basis Point (bps): a unit that is equal to 1/100th of 1% and is used to denote the change in a financial instrument.

Debt-to-Equity (D/E) Ratio: evaluates a company's financial leverage and is calculated by dividing a company's total liabilities by its shareholder equity.

Debt-to-GDP Ratio: a metric that compares a country's public debt to its gross domestic product (GDP).

Dividend Yield: a financial ratio that shows how much a Fund pays out in dividends each year relative to its share price.

Liquidity: the degree to which an asset or security can be bought or sold in the market without affecting the asset's price.

MSCI India Index: designed to measure the performance of the large and mid-cap segments of the Indian market. With approximately 125 constituents, the index covers approximately 85% of the Indian equity universe. One may not invest directly in an index.
