Performance of the fund relative to its benchmark will depend largely on the decisions of the RiverFront Investment Group, LLC (the "Sub-Adviser" or "RiverFront") as to strategic asset allocation and tactical adjustments made to the asset allocation. At times, RiverFront’s judgments as to the asset classes in which the Fund should invest may perform better than or worse than others, or fixed income markets generally from time to time or for extended periods of time. The performance of the fund is related to the market sectors that RiverFront may choose to emphasize or deemphasize from time to time, as well as the individual securities selected by RiverFront within those sectors. The investment returns for particular market sectors will fluctuate and may be lower than other sectors. In addition, the individual securities chosen for investment within a particular sector may underperform other securities within that same sector. Certain bonds selected for the fund’s portfolio may decline in value more than the overall bond market.
