

# Morningstar Income and Growth ETF Asset Allocation Portfolio - Class II

IETFX

ALPS VARIABLE INVESTMENT TRUST

Annual Shareholder Report December 31, 2024

This annual shareholder report contains important information about Morningstar Income and Growth ETF Asset Allocation Portfolio (the "Portfolio" or "IETFX") for the period of January 1, 2024 to December 31, 2024 (the "Period"). You can find additional information about the Portfolio at <https://www.alpsfunds.com/variable-insurance-trusts/ietfx>. You can also request this information by contacting us at 1-866-432-2926.

## WHAT WERE THE PORTFOLIO COSTS FOR THE PAST YEAR?

(based on a hypothetical \$10,000 investment)

	Costs of a \$10,000 Investment	Costs Paid as a Percentage of a \$10,000 Investment
Class II	\$81	0.78%

## HOW DID THE PORTFOLIO PERFORM FOR THE PERIOD AND WHAT IMPACTED PERFORMANCE?

The Morningstar Income and Growth ETF Asset Allocation Portfolio Class II returned 7.97% for the 12-month period ended December 31, 2024. The Portfolio outperformed the Income & Growth Blended Benchmark-1 which returned 7.69% during the same period. The Portfolio was last reallocated in November 2024 and reflected a broadly diversified allocation within fixed income and a 40% allocation to equity.

Top contributors to relative performance in 2024 included the following:

- The Portfolio benefitted from broad exposure to the U.S. equity market which achieved a double digit return for the second year in a row.
- U.S. high yield and credit exposure outperformed government bonds with similar maturities during 2024. The Portfolio benefitted from a dedicated position to U.S. high yield and a credit overweight during 2024.
- Longer maturity and duration bonds underperformed short-term bonds during 2024. The Portfolio's high short-term bond allocation and relative underweight to duration added to performance during 2024.

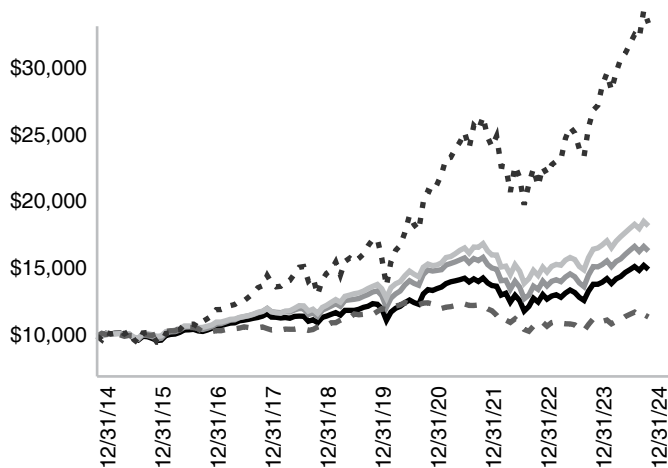

Top detractors to relative performance in 2024 included the following:

- International equity underperformed U.S. equity exposure by a large margin in 2024. The Portfolio's international equity exposure was a top detractor during 2024.
- Global small cap stocks underperformed large cap peers in 2024. The Portfolio's small cap stock exposure detracted from relative performance during the year.
- The growth style of investing outpaced value in 2024. A small overweight to the value style had a negative impact on the Portfolio's relative performance in 2024.

## Comparison of change in value of a \$10,000 investment in the Portfolio and the Indexes

The Portfolio's past performance is not a good predictor of the Portfolio's future performance. The chart and the table below do not reflect the deduction of taxes that a shareholder would pay on Portfolio distributions or sale of Portfolio shares.

- Morningstar Income and Growth ETF Asset Allocation Portfolio (Class II) - \$14,985
- Income & Growth Blended Benchmark-1 (40% Equity) - \$16,368
- Blended Secondary Benchmark - \$18,239
- - - Bloomberg US Aggregate Bond Index - \$11,432
- • • Bloomberg US 1000 Index - \$33,407

## Average Annual Total Returns (as of December 31, 2024)

	1 Year	5 Year	10 Year
Morningstar Income & Growth ETF Asset Allocation - II	7.97%	3.81%	4.13%
Income & Growth Blended Benchmark-1 <sup>(a)</sup>	7.69%	4.23%	5.05%
