Part II Organizational Action

Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders’ ownership is measured for the action. SEE ATTACHED STATEMENT.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis. THE AMOUNT SHOWN AS A RETURN OF CAPITAL DISTRIBUTION IN THE ATTACHED STATEMENT REPRESENTS A REDUCTION OF THE SHAREHOLDERS TAX BASIS ON SHARES HELD. SEE LINE 15 ABOVE.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates. SEE LINE 15 ABOVE.
Part II  Organizational Action (continued)

17  List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based.  

Pursuant to IRC sections 301(c)(1), the portion of a distribution which is a dividend (as defined under IRC section 316) is includable in gross income. Pursuant to IRC section 301(c)(2), the portion of the distribution which is not a dividend shall be applied against and reduce the adjusted basis of the stock.

18  Can any resulting loss be recognized?  

Not applicable to this transaction. No loss would be recognized on the return of capital distribution. The shareholder’s cost basis should be adjusted to reflect the return of capital distribution which may affect the gain or loss realized upon the disposition of the shares.

19  Provide any other information necessary to implement the adjustment, such as the reportable tax year.  

Pursuant to IRC section 6045, as amended by the Emergency Economic Stabilization Act of 2008, brokers are required to reflect these adjustments in the cost basis reporting for covered securities. If a broker is not required to provide cost basis to a particular shareholder, the cost basis of the shareholder’s shares should be adjusted as of the dividend date to reflect the return of capital described above.
